Annual Index

Authors

Abderhalden, E.: After effects of thyroid extirpation 435
— Influence of compounds of known structure on development of tadpoles.....157
— (Gellhorn): Action of insulin.430
— — Increase of adrenin action by amino acids.....245
— (Wertheimer): Influence of diet on action of internal secretions 157, 423
— — Insulin and adrenalin action on animals on different diets 157
Abel, A. R. (Backus, Bourquin and Gerard): Trytophen and thyroid function 435
Abel, J. J. (Geiling): Is insulin an unstable sulphur compound? 522
Ablahadian, E.: cf. Hall.....336
Abrahamson, L.: Case of Fröhlich's syndrome 165
Abrami, P.: cf. Widal.....173
Adams, S. F.: Three cases of pernicious anemia and diabetes mellitus; apparent ineffectiveness of insulin in profound anemia 252
Ainslee, Harriet B.: cf. Moehlig.250
Aldinger, A. K.: cf. Goldberger.344
Allen, B. (Doisy): Continuation of secretion of ovarian follicular hormone by human corpus luteum 159
Allen, E.: cf. Doisy..... 89
— (Pratt and Doisy): Ovarian follicular hormone: distribution in human genital tissues 424
— (Whitsett, Hardy and Kneibert): Follicular hormone of hen ovary 87
Allen, R. S. (Murlin): Inactivation and reactivation of insulin 523
Ambard, (Merklen, Schmid and Arnovlgevitch): Diabetes in pregnancy and congenital diabetes in infant.....329
Ambard, L. (Schmid): Trophic action of insulin.....431
Anrep, G. V. (Doly): Output of adrenalin in cerebral anemia..313
Apert, E.: Diabetes with infantilism treated with insulin... 93
Appleton, J. L.: Hypertrophy of submaxillary gland following parathyroidectomy 335
Arnovlgevitch: cf. Ambard....329
Arvay, A.: cf. Verzár.....423
Aschheim, S.: cf. Zondek.....429
Aschner, B.: Pituitary and female sex organs.....325
Asher, L.: Fundamentals of organotherapy 82
— (Takahashi): Chemical regulation of the heart by the liver 93
Athanasiu, I. (Pézard): Influence of castration on motor nerve energy 159
Atwell, W. J.: Quantitative studies on the pars tuberalis of the hypophysis cerebri.....520

Backus, R. W.: cf. Abel.....435
Badertscher, J. A.: Pineal gland extirpation in chicks.....259
Bailey, F.: cf. Jones.....255
Bailey, P. (Davidoff): Histology of acromegalic hypophysis....325
Baldes, E. J.: cf. Boothby.....339
Banting, F. G.: Insulin.....253
Bär, R. (Jaffe): Lipoids in adrenals and gonads.....157
Barbour, H. G.: cf. Hamilton...170
— (Hamilton): Epinephrin anhydremia and its relation to the emergency function of the adrenals.....515
Barbour, O.: Use of insulin in nondiabetic children 93
Bardier, E. (Stillmunkes): Resuscitation by epinephrin.....313
Barker, L. F.: Discussion of ductless glands 315
Barlow, O. W.: Adrenalectomy and its relation to metabolism of cat 515
Bauman, E. J.: cf. Marine.....105
— (Hunt): Relation of thyroid secretion to specific dynamic action 525
— — Thyroid and specific dynamic action 107

Bayley, E. C. (Davis, Whitman and Scott): Effect of pituitrin on blood, lymph and urine...165
Behre, J. A.: cf. Travell.....101
Bell, A. L. Loomis: cf. Gordon.265
Bell, M.: cf. Blatherwick..... 94
Benoit, J.: Endocrine activity of young testis in fowls.....159
— New case of experimental sexual inversion in domestic fowl 160
— Significance of right rudimentary genital gland in hen..159
Berberich, J. (Jaffe): Lipoid metabolism in ovaries and adrenals 160
Berchtold, E.: cf. Schoen.....517
Berghoff, R. S.: Practical danger in use of insulin by patient at home 94
Berkeley, W. N.: Therapeutic uses of parathyroid glands....168
Berman, L.: Crystalline substance from parathyroids that influences calcium content of blood 102
Bernhardt, H.: cf. Zondek.....328
Billings, F.: Glandular therapy. 82
Binet, L.: cf. Sergent.....314
Bircher, E.: Iodin treatment of goiter 338
Blankmeyer, H. C.: Juvenile thyroid 339
Blatherwick, N. R. (Bell and Hill): Effect of insulin on carbohydrate and phosphorus metabolism in normal individuals. 94
Blatz, W. E. (Heron): Effect of endocrine feeding upon learning 84
Bliss, G. L.: Thymus glands....337
Blum, L.: Perlingual administration of insulin.....169
Bonilla: Prophylaxis and treatment of goiter by iodine.....107
— cf. Marañon 467
Boothby, W. M. (Baldes): Quantitative relationship of thyroxin calculated from the calorigenic action 339
Bornstein, A. (Holm): Respiratory exchange after insulin injection and sugar ingestion...329
Bour, D.: cf. Tuffier.....427
Bourne, W.: cf. Steele.....499
Bourquin, H.: cf. Abel.....435
Boyd, Gladys L. (Robinson): Regeneration in diabetic pancreas after insulin 330
Bram, Israel: Goiter: Nonsurgical types and treatment. (Book Review.) 310
Brand, E. (Sandberg): Relation between insulin and trypsin..523
Brandes, W. W.: cf. Simonds 251, 326
Brawn, C. E.: cf. Taylor.....524
Brdiczka, G.: Stimulation of uterus by serum of pregnant and parturient women.....160
Brett, P. C.: cf. Gardiner-Hill..527
Broening, A.: Oxygen consumption in adrenals.....245
Brown, A.: cf. Tisdall.....333
Brugnatelli, E.: Physio-pathological significance of interstitial cells 88
Brugsch, T. (Horsters): Insulin problem 330
— (Exten and Horsters): Intermediary carbohydrate metabolism in phloridzin diabetes 95
— (Horsers and Shinoda): Intermediary carbohydrate metabolism in liver after insulin 95
Brunton, C. E.: Blood urea and its estimation in diabetes mellitus 523
Bulato, S. W. (Cannon): Role of adrenal in pseudoaffective hyperglycemia 516
Burghi: Macrogenitosomia precox in a girl 9 years of age.... 91
Burnet, J.: Exophthalmic goiter in children 260
Busso, R. R.: Susceptibility of thyroidectomized animals to toxins 339

Cajori, F. A. (Crouter): Comparative rates of glycolysis in different bloods with particular reference to diabetic blood... 95
Caldwell, G. T.: Lymphoid hyperplasia in thyroid.....260
Calvert, E. C. B.: cf. Langmead.318
Campbell, C. Macfie: Psychical disturbances in the diseases of the glands of internal secretion 201
Campbell, J. M. H.: Geographic distribution of exophthalmic goiter in British Isles.....526
Camus, J. (Gournay): Disappearance of genital atrophy after thymus ingestion.....168
— (Gournay and Le Grand): Diabetes from lesions in tuber cinereum 249
Cannon, W. B.: Endocrine factor control of body temperature..245
— cf. Bulato 516

Carlson, A. J.: Physiology of mammalian ovaries 88
Carnot, P. (Peron): Syphilitic pancreatitis without diabetes.. 95
Carr, M.: cf. Korenchevsky.....323
Carrasco: cf. Marañon..... 86
Cashin, M. F.: cf. Kaufmann...176
Castle, W. B.: cf. Jones.....255
Castaldi, L.: Effect of administering adrenal cortex to young guinea pigs 153
Cattell, R. B.: Pathology of exophthalmic goiter 526
Chabanier, H. (Lumière and Lebert): Insulin in treatment of ulcers 431
Chamberlain, E. N.: cf. Coope..520
Chambers, W. H.: cf. Deuel....524
Chang, Hsi Chun: cf. Koppányi.513
Clarke, C. (Hadfield): Congenital pancreatic disease with infantilism 331
Clute, H. M.: Treatment of complications arising after operations on thyroid.....174
Cohen, S. S. (Weiss): Dystrophia adiposogenitalis 249
Coller, F. W.: Damage consequent upon goiter.....526
Collip, J. B. (Leitch): Tetany treated with parathyrin.....169
Colwell, A. R.: Insulin and phlorizin glucosuria 96
Compere, E. L. (Luckhardt): Efficacy of various calcium salts in parathyroid tetany...102
— cf. Luckhardt 103
Coope, R. (Chamberlain): Effect of pituitrin on fatty acid of liver 520
Corbitt, H. B.: cf. Müller.....332
Cori, C. F.: Influence of insulin on phlorizin poisoning..... 96
— Insulin and liver glycogen...331
Cori, C. F. (Cori, Gerty, T.): Sugar concentration in arterial and venous blood during insulin action 96
Cori, Gerty T.: cf. Cori, C. F... 96
Coulaud, E.: Preparation of antithyroid serum and its biological properties 174
Courrier, R.: New studies on folliculin. Passage of hormones through placenta 89
— Ovarian hormones 320
Cowell, S. J. (Mellanby): Effect of iodine on hyperthyroidism..175
Crile, G. W.: Surgery of glands of internal secretion.....301
Critchley, M.: Present position of parathyroid therapy.....102
Crofton, William M.: Outline of endocrinology (Book Review). 76
Crouter, C. Y.: cf. Cajori..... 95
Curran, E. J.: cf. Major.....172
Dal Collo, P. G.: Ovary and thyroid function 320
Daly, P. A. (Strouse): Thyroid during pregnancy 340
Dandy, W. E. (Reichert): Effect of hypophysectomy on maintenance of life.....520
David: cf. Faure-Beaulieu.....432
Davidoff, L. M.: cf. Bailey.....325
Davidson, J. R.: Adolescent myxedema accompanied by nephrosis and tetany.....435
Davies, H. W. (Meakins and Sands): Blood gases and circulation rate in hyperthyroidism 340
Davis, J. C.: cf. Bayley.....165
Davis, R. C.: cf. Major.....331
Deuel, H. J. (Chambers and Evengen): Effect of insulin on metabolism of dogs under amytal anesthesia 524
Dixon, W. E. (Marshall): Influence of ovary on pituitary secretion 248
Dobkowsky, T.: Dental investigation in homosexual men....160
Doisy, E. A.: cf. Allen.....159, 424
— (Ralls, Allen and Johnston): Extraction and properties of ovarian hormone 89
Doly, I. de B.: cf. Anrep.....313
Domm, L. V.: Sex reversal following ovariotomy 89
Dowd, H. L.: Endocrinology in pediatrics, especially hypoplastic-dyspituitary type 317
Drabkin, D. L. (Shilkret): Anhydremia with insulin and water intake 253
Drake, T. D. H.: cf. Tisdall....333
Dresel, K. (Wollheim, E.): Electrolyte shift in blood and tissues through adrenin action.. 79
Dreyfus-Sée: cf. Rathery.....101
Dryerre, H.: Effect of thyroid extract and thyroxin upon response to adrenalin.....340
Dudley, H. W.: Insulin from codfish. Direct application of picric acid 96
Dufour, H. (Hurez and Pau): Mucin deposits in myxedema..340
Duke, W. W.: Epinephrin in treatment of herpes zoster.... 79
Dunhill, T. P. (Fraser and Scott): Auricular fibrillation in thyrotoxication 341

Dunn, E. R.: cf. Voegtlin..328, 334
Durrant, E. P.: Studies on vigor. III. The effect of ovarian extract feeding on the activity of ovariectomized white rats....221

Eckstein, A.: Goiter in infants..341
— Influence of underfeeding on genital function 89
Eggenberger, H.: Goiter prophylaxis in Switzerland.....341
Eguchi, K.: cf. Fukush.....343
Ellis, M. M. (Newton): Changes in physiological action of insulin induced by ultraviolet light 431
Emerson, H. (Larimore): Diabetes mellitus, its epidemiology 253
Engelbach, W.: Juvenile adiposity 165
Enselme, J.: Action of insulin on different carbohydrates.... 96
Epstein, A. A.: Action of pepsin on insulin 97
— Reaction of inactivated insulin 524
Evengen, J.: cf. Deuel.....524
v. Exten, S.: cf. Brugsch..... 95

Fahr, G.: Myxedema heart.....175
Faure-Beaulieu (David): Insulin treatment of leg ulcers...432
Ferrannini, L.: Pituitary syndromes 249
Field, C. P.: Treatment of sprue by parathyroid extract.....434
Fini, Maria I.: Hyperthyroidism in the infant. (Book Review). 76
Fisher, N. F. (Larson): Extracts of parathyroid 525
— cf. Martin 516
Fliegel (Strauss): Arthritis from ovarian insufficiency....320
Fleisher, M. S.: cf. Wilhelmj...532
Fogelberg, H.: Changes in blood, especially in blood sugar concentration after exposure of thyroid to x-rays.....342
Folkmar, E. O.: Basal metabolism in adiposity.....248
Forrest-Smith, J.: cf. Gardiner-Hill 522, 527
Foshay, L.: Action of insulin on blood; cause of hypoglycemia.432
Foster, D. L. (Woodrow): Relation between pancreas and carbohydrate metabolism of muscles. I. Lactic acid production 97
Foster, N. B.: Goiter heart....342
Frank, Marie-Louise: cf. Frank, R. T. 425
Frank, R. T. (Gustavson): Female sex hormone and gestational gland 320
— (Frank, Gustavson, Weyerts): Demonstration of female sex hormone in circulating blood 425
Frankel, Florence Hulton: cf. Shapiro 472
Fraser, F. R.: Iodin in exophthalmic goiter 343
— cf. Dunhill 341
Frazier, C. H.: Surgical aspects of goiter 260
— (Grant): Pituitary disorder.521
Frossard, R.: cf. Lereboullet... 98
Fujii, S.: Thymic syphilis.....338
Fukushi, M. (Eguchi): Thyroid regression in different diseases 343

Gardiner-Hill, H. (Brett and Forrest-Smith): Carbohydrate tolerance in myxoedema.....527
———— Significant factors in adolescent goiter 527
— (Jones and Forrest-Smith): Pituitary obesity and adolescence 522
Geiling, E. M. K.: cf. Abel.....522
— cf. Kolls 92
Geller, F. C.: Irradiation of ovary and temporary sterilization 321
— Stimulating irradiation of ovary 321
Gellhorn, E.: Thyroid and nitrile poisoning 176
— cf. Abderhalden 245, 430
Gerard, R. W.: cf. Abel.....435
Geyelin, H. R. (Ladd): Severe juvenile diabetes 254
Gibson, R. B. (Larimer): Generalized edema following insulin 169
Glaser, E. (Wittner): Blood sugar reducing substances in plant extracts and oxydases together with proof enzymes in insulin 97
Gjertz, E.: Insulin by mouth...169
Goldberg, S. A. (Simpson): Pathological tissue changes in thyroidectomized sheep 108
Goldberger, I. H. (Aldinger): Goiter incidence in school girls of New York City.....344
Gordon, Murray B. (Bell): Roentgenographic study of sella turcica in abnormal children 265

Gourney, J. J.: cf. Camus..168, 249
Grabfield, G. P. (Prentiss): Effect of pituitary preparations on nitrogen metabolism.....144
Graham, G.: Relation of infection to diabetic coma.....524
Grant, F. C.: cf. Frazier.....521
Greene, J. A.: cf. Sturgis.....531
Greil, A.: Etiology of hermaphroditism and other sex anomalies 161
Grier, G. W.: Enlarged thymus; differential diagnosis and radium treatment 338
— Is irradiation satisfactory treatment for substernal goiter? 528
Gruber, C. M.: Effect of adrenalin action of skeletal muscle.. 79
— Effect of adrenalin upon excised human uterus.....407
Guillaume, A. C.: Autonomic nervous system (Book Review) 311
Gustavson, R. G.: cf. Frank.320, 425
Guttmacher, A. F.: cf. Wang...428

Hadfield, G.: cf. Clarke.....331
Hahn, C.: Action of testicular extracts on circulation of blood 322
Hall, David C. (Hofrichter and Mohr): Incidence of goiter among school children.....137
Hall, H. A. (Ablahadian): Function of spleen.....336
Hamburger, F.: Treatment of goiter in infants.....345
Hamilton, W. F. (Barbour and Warner): Does insulin significantly affect blood concentration? 170
— cf. Barbour 515
Hammar, J. A.: Progressive and regressive forms of Hassall's corpuscles 173
Hammett, Frederick S.: Interglandular association 297
— Growth of reproductive system in albino rat following thyroparathyroidectomy 345
— Thyroid apparatus and growth of certain organs in the albino rat 345
Hancher, K. G. (Rogers): Diagnosis and treatment of hypoovarianism 21
Hansen, S.: Heredity of diabetes 254
Hanson, A. M.: Hormone of parathyroid gland 525
Hardy, J. W.: cf. Allen..... 87
Harms, J. W.: Nature of internal secretion 317
Harms, W.: Gonad transplantation in dogs.....161
Harries, D. J.: Influence of intestinal bacteria upon thyroid.176
Hathaway, J. C.: Inverse relation of iodine and goiter in Utah 176
Hawley, Estelle E.: Influence of insulin on respiratory metabolism 98
Hayden, E. M. (Wenner and Rucker): Production of goiter by restricted iodine.....108
Hédon, E. (Hédon): Action of insulin on basal metabolism of totally depancreatized dog....170
Hédon, L.: cf. Hédon.....170
Hedvall, E.: Insulin in oily emulsion 433
Helie, Y.: cf. Portret.....351
Hemmingsen, A. M.: Action of insulin in frog and some vertebrates 170
Hendry, M.: cf. Talbot....353, 438
Henrichsen, S. L.: Mytilism shock treated with adrenalin.246
Heron, W. T.: cf. Blatz..... 84
Hertzler, A. E.: Relation of dysmenorrhea to interstitial thyrotoxicosis 346
Hess, A. S. (Jaffe): Effect of adrenalectomy on development of rickets 153
Higgins, W. H.: Incipient hypothyroidism 529
Hill, E.: Blatherwick 94
Hofrichter, Cassius M.: cf. Hall.137
Hollböll, S. A.: cf. Lundsgaard.257
Hollins, T. J.: Treatment of diabetes by raw fresh pancreas..255
Holm, K.: cf. Bornstein.....329
Holmes, G.: Virilism with suprarenal tumor 246
Holzman, A.: cf. Weinberger...101
Horsters, H.: cf. Brugsch...95, 330
Hoskins, R. G.: Effect of testicle grafts on activity.....277
— Effect of starvation on spontaneous activity of castrated rats 403
— (Hunter): Reactions of partially asphyxiated intestine to oxygen and epinephrin.. 80
Houssay, B. A.: Influence of metabolic, endocrine and nervous factors on the action of insulin 456
Howland, J.: Endocrine therapy in infancy and childhood..... 84
Hughes, T. P.: cf. Peterson....319

Hunt, H. Lyons: Results of gland transplantation in physicians 479
Hunt, L.: cf. Baumann....107, 525
Hunt, R.: Standardization of thyroid preparation 346
— Standardization of thyroid...347
Hunter, E. S.: cf. Hoskins..... 80
Hurez: cf. Dufour.....340
Hutchinson, R. (Wauhope): A case of precocious puberty... 89
Huxley, J. S.: Amphibian metamorphosis. II. 347
Hyman, H. T. (Kessel): Exophthalmic goiter and involuntary nervous system 529
Inouye, T.: Experimental tetany and diet 103
Izawa, Y.: Pinealectomy in chickens 336
Izzo, R. A.: Gerodermia and eunuchoidism 519
Jackson, A. S.: Goiter in children 347
— Iodin hyperthyroidism 436
Jaffe, H. L.: Regeneration of involuted thymus following double suprarenalectomy 104
— Regeneration of thymus following suprarenalectomy 104
— cf. Hess 153
Jaffe, R.: cf. Bär.....157
— cf. Berberich 160
— cf. Lotz 162
— cf. Oppermann 163
James, A. A. (Laughton): Control of blood pressure with liver extracts 430
John, Henry J.: Hypopituitarism and diabetes 397
Johnston, C. G.: cf. Doisy..... 89
Johnston, R. L.: cf. Salant.....315
Jonas, L.: Hypoglycemia.....255
Jones, C. M. (Castle, Mulholland and Bailey): Pancreatic and hepatic activity in diabetes mellitus 255
Jones, I.: cf. Gardiner-Hill.....522
Jones, L. T.: cf. Rush.....372
Joslin, E. P.: Changing diabetic clientele 256
— Diabetic manual for doctor and patient (Book Review). 76
— (Root and White): Growth, development and prognosis of diabetic children.....433
Kahn, R. H.: Action of thyroid and iodine preparations fed to frog larvae 108
Kaplan, E. E.: cf. Loeb.....177
Katsura, H.: Influence of thymus removal 105
Kaufmann, J. (Cashin): Hypernephroma associated with thyroid hyperactivity 176
Kayser, C.: cf. Le Breton.....165
Kendall, E. C.: Quantitative study of physiologic action of thyroxin 176
Kennedy, W. P.: Corpus luteum extracts and ovulation.....322
— Production of spermatoxins..322
Kessel, L.: cf. Hyman.....529
Key, J. A.: Secretion antecedents and mitochondria in pathologic thyroids 529
Kisch, B.: Experimental study of adrenal function 80
Kleitman, N. (Magnus): Action of insulin on central nervous system 257
Kline, B. S.: Origin of adenomatous goiter 348
Kneibert, F. L.: cf. Allen..... 87
Kobayashi, M.: Spleen and liver 85
Kogan, V. M.: Effect of insulin on isolated heart and its therapeutic action 170
Kokas, Ester: cf. Verzár.....423
Kolars, J. J.: cf. Levine.....171
Kollinar, Martha: Measurements on cortical cells of human adrenals 153
Kolls, A. C. (Geiling): Pharmacology of extracts of posterior lobe of pituitary..... 92
Konikow, M. J.: Enlarged thymus in infant; tetany after x-ray treatment 70
Kopelansky, D. S.: Absorption of sugar by isolated heart in endocrine insufficiency 158
Kopf, H.: Hypophysis and Raynaud's disease 522
Koppányi, Theodore (Chang): Liver transplantation 513
Korenchevsky, V.: Influence of castration on metabolism.....323
— (Carr): Influence of testis and prostate upon metabolism 323
Kurokawa, K.: Transplantation of parathyroid 336
Küstner, H.: Female gonads and renal diabetes 90
Kylin, E.: Significance of potassium ion for adrenalin reaction 313
Kyrilow, Angelo: Presence and significance of lipoids in thymus 174

Ladd, W. S.: cf. Geyelin.....254
Lagrange, E.: Reaction of testicular hormone 161
Lahey, F. H.: Use of iodine in goiter 530
Laignel-Lavastine: Pathology of the sympathetic system.....421
Langmead, F. S. (Calvert): Obesity in children.....318
Larimar, R. N.: cf. Gibson.....169
Larimore, L. D.: cf. Emerson...253
Laroche, Guy: Endocrine opotherapy (Book Review).....311
Larrú: cf. Piga.....108, 178
Larson, E.: cf. Fisher.....525
Laudat: cf. Lequeux..... 98
— cf. Widal 173
Laufberger, V.: Theory of insulin action 171
Laughton, N. B.: cf. James....430
Lawrence, C.: Endocrine therapy in gonad failure in male.....248
Lawrence, R. D.: Four cases of exophthalmic goiter treated with insulin 348
Lebert: cf. Chabanier.....431
Le Breton, Eliane (Kayser): Purine metabolism in diabetes insipidus 165
Lee, Milton O.: Effect of thyroidectomy on oestral cycle in rat.410
Le Grand, A.: cf. Camus.....249
Leitch, D. B.: cf. Collip.....169
Leites, S.: Blood calcium and the endocrine glands..... 85
Lelong, M.: cf. Lereboullet..... 98
Lequeux (Weill and Laudat): Insulin in acidosis and vomiting of pregnancy..... 98
Lereboullet, Pierre: Hypophysis and epiphysis syndromes in infantilism (Book Review).....151
— (Lelong and Frossard): Edematous erythrodermia due to insulin..... 98
Levine, S. V.: cf. Tolstoi.....101
Levine, V. E. (Kolars): Effect of insulin on morphological blood picture 171
Lewi, M. J.: cf. Mueller.....153
Lipschütz, Alexander: Internal secretion of sex glands (Book Review) 150
— Is there an antagonism between the male and the female sex-endocrine gland?.109
— Intrarenal ovarian transplantation 425
— (Lange, Svikul, Tütso and Vesnjakov): Mechanics of action of sectional experiment in hermaphroditism. Fractionation of latency time 427
Lipschütz, Alexander (v. Voss): Connection between implanted ovarian mass and latency time. Testicular fragments in experimental hermaphroditism.....426
— — Hormonel action and condition of testes-fragments in experimental hermaphroditism 426
— (v. Voss and Vesnjakov): Antagonistic influence of testis on ovary 426, 427
Lisser, H.: Frequency of endogenous obesity and its treatment by glandular therapy... 85
— Onychauxia in eunuchoid. Testicle implantation 161
— Organotherapy, present achievement and future prospects. 1
— (Shepardson): Case of tetania parathyreopriva treated with Collip's parathyroid extract 383
Lockwood, B. C.: Digestive tract and endocrine function.....517
Loeb, L. (Kaplan): Compensatory hypertrophy of thyroid..177
Loebel, R. O.: cf. Tolstoi.....101
Loeper, M. (Ollivier): Borax in hyperthyroidism 348
Loewe, S.: Estrus-inducing substances in blood of females...519
Lotz, A. (Jaffé): Testes in general affections 162
Luckhardt, A. B. (Compere): Increased gastrointestinal permeability as factor in tetany..103
— cf. Compere 102
Lumière: cf. Chabanier.....431
Lundsgaard, C. (Hollböll): Manner of effect of insulin.....257
Lundy, C. J.: Survival of mammalian testis in vitro.....162
Lusk, Graham: Interpretation of disturbances in metabolism due to the glands of internal secretion 213

Macdonald, W. J.: Extractives of liver possessing blood pressure reducing properties 430
MacDowell, E. C.: Effect of alcohol upon estrus..... 90
Mackensie, W. G.: Diurectic and antidiuretic effect of pituitary extract 92
Macleod, J. J. R.: cf. McCormick 332
— (Orr): Pharmacological assay of insulin..... 99

Magni, L.: cf. Pincherle.....251
Magnus, R.: cf. Kleitman.....257
Major, R. H. (Curran): Diabetic cataracts in infant.....172
— (Davis): High blood sugar with absence of sugar in urine 331
Maloff, G. A.: Physiological properties of substances from isolated thyroid 436
— cf. Yeresin 519-520
Manley, O. F.: cf. Marine.....105
Marañon, G. (Bonilla): Case of precocious and hereditary diabetes insipidus 467
— (Carrasco): Clinical value of basal metabolism determinations 86
Marine, D.: Influence of suprarenalectomy on antitoxin formation 80
— Influence of thyroid on heat production in pregnancy and lactation 261
— (Manley and Bauman): Influence of thyroidectomy, gonadectomy, suprarenalectomy and splenectomy on thymus gland 105
Marinesco, M. G.: Pathology of myxedema 349
Marsh, P. L.: Significance of glycosuria 99
Marshall, F. H. A.: cf. Dixon...248
Martin, C. L. (Rogers and Fisher): Effect of roentgen rays on adrenal.....516
Mason, E. H.: Iodine therapy in toxic goiter 261
— Treatment of obesity.....349
McClosky, W. T.: cf. Smith.92, 167
McCormick, N. A. (Macleod): Effect on blood sugar of fish of various conditions including removal of principal islets....332
McCrudden, F. H.: cf. Rowe.... 87
McGuire, S.: Iodin and goiter...177
McKinlay, C. A.: Obesity of endogenous type 424
McKinney, John McDowell: An unusual case of heterogenitalism 229
Meakins, J.: cf. Davies.....340
Means, J. H.: Circulatory disturbances in diseases of the glands of internal secretion...192
— cf. Starr 179
Meeker, L. H.: Riedel's struma.350
Meleney, H. E.: Histology of Kala-azar 313
Mellanby, E.: cf. Cowell.....175
Mendel, B. (Wittgenstein and Wolffenstein): Perlingual administration of insulin..... 99
Menninger, W. C.: Effect of epinephrin by oral administration.247
Merklen: cf. Ambard.....329
Middleton, G. W.: Goiter in intermountain region of Utah...261
Miura, Yoshio: Content of posterior pituitary secretion in cerebrospinal fluid 429
Mochizuki, N.: Blood sugar. Blood sugar in rabbit, distribution and behavior under various conditions 99
Modern, Fred S. (Reed): Case of pluriglandular dyscrasia 61
Moehlig, R. C. (Ainslee): Antagonistic action of posterior pituitary extract and insulin....250
Mohr, George J.: cf. Hall.....137
Müller, E. F. (Corbitt): Insulin and skin 100
— — Insulin; its intradermal injection 332
— (Lewi and Myers): Relation of adrenalin to action of insulin upon blood sugar content 153
— (Petersen): Glycogenolytic action of insulin.....524
— (Wiener and Wiener): Mechanism of insulin action....258
Mulholland, H. B.: cf. Jones...255
Muñoz, U.: Papilloneuritis in children with hyophyseal syndromes and their treatment by hypophysis and thyroid extracts 92
Münzen, F. T. (Pollock): Changes in endocrine organs and brain in schizophrenia...518
Murlin, J. R.: cf. Allen.....523
Murphy, W. P.: Five cases of diabetic coma 258
Musser, J. H., Jr.: Severe acidosis of diabetes.....258
Myers, C. M.: cf. Mueller.....153

Nakamura, H.: Internal secretions 329
Nakayama, M.: Sugar threshold.100
Nebinger, R.: Nose, throat and larynx in thyroid disease.....350
Newton, E. B.: cf. Ellis.....431
Nicholas, J. S.: cf. Swingle.....103

Odermatt, W.: Pineal precocity.525
Ohara, T.: Adrenalin hyperglycemia 516
Oliver, J. (Oliver): Oculo-cardiac reflex and endocrinology.178

Oliver, G. Y.: cf. Oliver.....178
Olivet, J.: Secondary female hirsuteness, a hypophyseal characteristic 166
Ollivier, J.: cf. Loeper.....348
Oppermann, E. (Jaffé): Lipoids in testes of children.....163
Orgel, S. Z.: Transitory congestive thyroid enlargement.....350
Orr, M. D.: cf. MacLeod..... 99
Oswald, A.: Thyroid and nervous system 437
Overholser, Milton D.: Number of Islets of Langerhans in the pancreas of the albino rat....493
Papanicolaou, G. N.: Reactions to ovarian extracts.....163
Pardee, I. H.: Medical treatment of pituitary neoplasm.....429
Pardo: Case of Barraquer's disease 87
Pareja, J. M.: Hypophysis and basal metabolism 326
Paton, N.: Tetany and functions of parathyroids 103
Patrick, A.: Acute diabetes following mumps 332
Pau: cf. Dufour.....340
Payne, C. F.: cf. Robinovitch...490
Pearse, I. H.: cf. Williamson 354, 439
Perkins, J.: Deficient anterior pituitary functioning in women 166
Peron, N.: cf. Carnot..... 95
Péter, F.: cf. Verzár.....423
Peterson, W. F. (Hughes): Effect of d and l suprarenin pituitrin and pilocarpin on the mineral balance of the lymph.319
— cf. Müller 524
Petrowsky, W. W.: cf. Yeresin.. 519-520
Pettinari, V.: Regeneration of ovary 324
— Transplantation of ovary in old animals 90
Petty, Orlando H. (Stoner): Diabetes: its treatment by insulin and diet (Book Review).....421
— (Le Fevre): Insulin in diabetes requiring surgery....259
Petren, K.: Pathogenesis of ketosis 259
Pézard, A.: cf. Athanasiu.....159
Piga, F. (Larrú): Roentgen ray therapy in disturbances..108, 178
Pincherle, M. (Magni): Juvenile diabetes insipidus 251
Plaso, N.: Pulmonary tuberculosis and exophthalmic goiter. 109, 178
Plaut, R. (Timm): Influence of ovaries on metabolism..... 91
Plummer, W. A.: Iodine in treatment of goiter.....262
Pollok, W.: cf. Münzen.....518
Portret, S. (Helie): Electrical treatment of exophthalmic goiter 351
Poynton, J. F.: Celiac disease with glycosuria 333
Pratt, J. P.: cf. Allen.....424
Prentiss, A. M.: cf. Grabfield...144
Priesel, R. (Wagner): Insulin treatment in childhood.....100
Puchulu, F.: Insulin treatment of hyperthyroidism 530
Pybus, F. C.: Notes on suprarenal and pancreatic grafting. 81
de Quervain, F.: Goiter: Pathology and treatment of diseases of thyroid (Book Review) 77
Rabinowitch, I. M.: Effect of thyroidectomy on calcium content of blood.....109, 178
Ralls, J. O.: cf. Doisy..... 89
Rathery, F. (Dreyfus-Sée): Diabetic coma with pulmonary tuberculosis treated with insulin 101
Reed, Grendon F.: cf. Modern.. 61
Richardson, H. B.: cf. Tolstoi...101
Richter, C. P.: cf. Wang.....428
Rickey, Edna: Thyroid influence on behavior of white rat.352
Reichert, F. L.: cf. Dandy.....520
Ritchie, W. T.: cf. Watson.....519
Robinovitch, Louise G. (Stiles and Payne): Pancreas and tuberculosis 490
Robinson, W. L.: cf. Boyd.....330
Rogers, F. T.: cf. Martin.....516
Rogers, John.: cf. Hancher.... 21
Rogoff, J. M.: Adrenalectomy and morphine tolerance.....314
— cf. Stewart 247
Rohdenburg, G. L.: Case report of a pseudohermaphrodite....122
Root, H. F.: cf. Joslin.....433
— cf. Warren 334
Rosenberg, M.: cf. Umber.....334
Rowe, A. W.: Objective determination of gonad failure in male 249
— (McCrudden): Metabolism observations in a case of urticaria scripta 87
Rowland, W. D.: Visual fields in pituitary disease 326

Rowntree, Leonard G.: An evaluation of therapy, with special reference to organotherapy...181
— Studies in Addison's disease..154, 247
— Organotherapy in Addison's disease 81
Rucker, C. W.: cf. Hayden.....108
Rucker, M. P.: Action of adrenalin on pregnant human uterus 314
Rush, Homer P. (Jones): Distribution of goiter among Indians 372

Sachs, E. (MacDonald): Blood sugar in pituitary and hypothalmic lesions 166
Sajous, Charles E. de M.: Thermogenesis as fundamental function of the adrenal medulla and cortex.....441
Sanchez, M. L.: Relations between the hypophysis and the diencephalic centers (Book Review) 421
Sandberg, Marta: cf. Brand....523
Sands, J.: cf. Davies.....340
Salant, W. (Washeim and Johnston): Influence of calcium and potassium on response to epinephrin 315
Salvioli, G.: Relation between experimental tuberculosis and thyro-parathyroid system.352, 437
Sawasaki, H.: Accuracy of standardization of pituitary preparations with isolated uterus....522
Schapiro, A.: Intracardiac epinephrin injection 314
Scheer, K.: Relation between vitamine and hormones.....424
Schmid, F.: cf. Ambard....329, 431
Schoen, R. (Berchtold): Effect of adrenalin on venous blood from bone marrow.....517
Schöndube, W.: Gallbladder and pituitary 326
Schridde, H.: Thymic constitution 106
Schulmann, E.: Syphilis of thyroid 263
Scott, A. W.: cf. Dunhill.....341
Scott, E. L.: cf. Taylor.....524
Scott, F. H.: cf. Bayley.....165
Secoff, D. P.: Mitochondria in thyroid hyperplasia 353
— Studies on mitochondria. I. The changes occurring during experimental thyroid hyperplasia and its involution with iodine.....437
Sedlezky, S. K.: Changes in the hypophysis in chronic inanition 167
Segall, H. N.: cf. Starr.....179
Senga, H.: Insulin treatment of exophthalmic goiter 531
Sergent, E. (Binet): Calcemia in tuberculosis: adrenalin and fixation of calcium.....314
Shapiro, Shepard (Frankel, Florence Hulton): Influence of desiccated spleen and bone marrow feedings upon the erythrocyte and hemoglobin contents of the blood.....472
Shellshear, J. L.: Thymus gland in Chinese 106
Shen, T. C.: Clinical studies on the urine of eunuchs.....324
Shepardson, H. C.: cf. Lisser...383
Shilkret, H.: cf. Drabkin.....253
Shinoda, G.: cf. Brugsch..... 95
Simpson, S.: cf. Goldberg.....108
Simonds, J. P.: Abscess of hypophysis 117
— (Brandes): Pathology of hypophysis 251
— — Pathology of hypophysis, I and II 326, 327
Sinelnikoff, E. I.: Liebig's extract in experimental tetany..434
Smith, B.: Symptom complex in diabetes that may be confused with reaction to insulin overdosage 333
Smith, M. I. (McClosky): Action of standard infundibular powder on the secretion of urine.167
— — Dialysis of physiologically active constituents of infundibulum 167
— — Factors concerned in deterioration of pituitary extracts 92
Solis-Cohen, S. (Weiss): Dystrophia adiposogenitalis with atypical retinitis pigmentosa and mental deficiency.....252
Sorg, K.: Lipoids in cattle testes.164
Starr, P. (Walcott, Segall and Means): Iodin in exophthalmic goiter 179
Stefko, W.: Secondary ascent of the testis in starved children..164
Stefko, W. H.: Constitution of cardiac changes in inanition..158
Stehle, R. L. (Bourne): Effect of pituitary extract on secretion and composition of urine....429
Stewart, G. N. (Rogoff): Adrenal insufficiency 247

Stiles, George W.: cf. Robinovitch 490
Stillmunkes, A.: cf. Bardier....313
Stockard, C. R.: Gonads and sex physiology 324
Stone, Calvin P.: Maternal behavior of parabiotic rats.....505
Stoner, Wm. H.: cf. Petty (Book Review) 421
Strauss: cf. Fliegel.....320
Strouse, S.: cf. Daly.....340
Sturgis, C. C. (Greene): Nutritional changes in exophthalmic goiter 531
Sumbal, J.: Influence of hypophyseal extracts of acetyl-choline and of hystamin on coronary arteries of tortoise.....327
Swingle, W. W. (Nicholas): Parathyroid transplantation 103

Takahashi, K.: cf. Asher..... 93
Takaizumi, M.: Carcinoma of hypophysis 327
Takane, I.: Myocarditis from thyroidin and iodine salts.353, 438
Takenaga, K.: Vessel-reactions and adrenin-formation of isolated adrenals 81
Talbot, F. B. (Hendry): Basal metabolism of children with ichthyosis 353
— — The basal metabolism of children with ichthyosis.438
Taylor, T. C. (Brawn and Scott): Ultrafiltration and electrodialysis of insulin solutions.....524
Thompson, H. K.: Endocrine element in arthritis.....248
Thomson, J. W.: Age as factor in diabetic mortality 259
cf. Voegtlin 328, 334
Timm, H. A.: cf. Plaut..... 91
Timme, W.: Childhood inadequacy in internal glandular system 319
Tisdall, F. F. (Drake and Brown): Carbohydrate metabolism of infants.....333
Tobler, T.: Graves' disease following iodine treatment 179
Tolstoi, E. (Loebel, Levine and Richardson): Production of lactic acid in diabetes following 101
Towne, E. B.: Cessation of diabetes insipidus on roentgen-ray treatment of pituitary gland..168
Travell. J. G. (Behre): Effect of insulin upon fermation of glucose 101
Trelease, S. F. (Yule): Preparation of scientific and technical papers (Book Review).....151
Trendelenburg, P.: Share of adrenin secretion in reaction to sugar puncture 81
Tuffier, T. (Bour): Ovarian grafts 427

Ucko, H.: cf. Zondek..... 87
Ukai, S.: Transplantation of pancreas 333
Umber, F. (Rosenberg): Diabetes refractory to insulin....334

Van Dyke, H. B.: Absorption of iodine by hyperplastic thyroid.354
— On the absorption by the hyperplastic thyroid gland of various forms of iodine introduced intravenously ...438
Vásárhelyi, B.: cf. Verzár.....438
Verzár, F. (Kokas and Arvay): Fixing of cholesterol in the nervous system in vitamin B deficiency 423
— (Peter): Hypertrophy of adrenal cortex with vitamin B deficiency 423
— (Vásárhelyi): Thyroid function in vitamin B deficiency 438
Vesnjakov, S.: cf. Lipschütz.426, 427
Villa, L.: Insulin and diabetes insipidus 93
— Liver in insulin hypoglycemia.434
Vincent, Swale: Introduction to study of secretion (Book Review) 77
Voegtlin, C. (Dunn and Thompson): Antagonistic action of glycerol on insulin intoxication 334
— (Thompson and Dunn): Pituitrin hyperglycemia and antagonism between pituitrin and insulin 328
v. Voss, H. E.: cf. Lipschütz.426, 427

Wagner, R.: cf. Priesel.....100
Walcott, H. P.: cf. Starr.....179
Waltner, K.: Insulin and galvanic excitability 172
Wang, G. H. (Richter and Guttmacher): Activity studies on male castrated rats with ovarian transplants, and correlation of activity with histology of grafts 428
Warburg, E.: Diabetic coma, complicated with uremia.....173
Warfield, L. M. (Youmans): Liver injury in thyrotoxicosis.264

Warner, J. H.: cf. Hamilton....170
Warren, S. (Root): Pathology of diabetes 334
Washeim, H.: cf. Salant.....315
Watson, W. N. B. (Ritchie): Progressive lipodystrophy....519
Wauhope, G. M.: cf. Hutchinson 89
Weber, E. P.: Xanthosis of hands and feet in diabetes.....335
Wehland, N.: Influence of atropin on vascular response to adrenalin 423
Weill, A.: Lequeux..... 98
— cf. Widal 173
Weinberger, W. (Holzman): Does pancreatic hormone (insulin) lower blood pressure.....101
Wiener, H. J.: cf. Mueller.....258
Weiner, R. von E.: cf. Mueller..258
Weir, J. F.: The thyroxin and tryptophane content of the diseased thyroid gland and the iodin compound in dessicated thyroid 354, 439
Weiss, E.: cf. Cohen.....249

Werneck, C.: Endocrine origin of thymic asthma.....106
Wertheimer, E.: cf. Abderhalden 157, 423
Wetzel, R.: A case of dwarfism.158
Weyerts, W. W.: cf. Frank.....425
Wheelon, Homer: Clinical significance of congenital absence of upper later incisor teeth..... 35
— Precocious menstruation, two cases 353
White, Priscilla: cf. Joslin.....433
Whitman, W.: cf. Bayley.....165
Whitsett, J. W.: cf. Allen..... 87
Widal, F. (Abrami, Weill and Laudat): Hydremia of diabetes treated by insulin.....173
Wilhelmj, C. M. (Fleisher): Physical-chemical changes of blood in thyroidectomized guinea pigs 532
Williamson, G. S. (Pearse): Classification of goiter.....354
— — The pathological classification of goiter 439
Wittgenstein, A.: cf. Mendel... 99
Wittner, L.: cf. Glaser..... 97
Wolffenstein, E.: cf. Mendel.... 99
Wollheim, E.: cf. Dresel..... 79
Woodrow, C. E.: cf. Foster..... 97
Worster-Drought, C.: Dyspituitarism following encephalitis lethargica 430

Yamauchi, M.: Lipoid content of human and cattle ovaries....164
Yeresin, W. J. (Petrowsky and Maloff): Physiological action of ovarian fluid.....519-520
Youmans, J. B.: cf. Warfield...264
Yule, Emma S.: cf. Trelease. (Book Review) 151

Zavadovsky, Boris: Effect of feeding fowls on thyroid gland 125
— The effect of single doses of thyroid gland on fowls.....232
Zeckiver, I. T.: Chromaffin cell tumor of suprarenal medulla..517
Zondek, B. (Aschheim): Ovarian hormone 429
Zondek, H. (Bernhardt): Action of pituitary extract.....328
— (Ucko): Hormones and the pH. 87

Subjects

Addison's disease, studies in.154, 247
Adiposogenitalis 249
— with atypical retinitis pigmentosa and mental deficiency 252
Adrenals and antitoxin formation 80
— — cardiac changes during inanition 158
— — pancreatic grafting 81
— cortex, administration of, to young guinea pigs.....153
— — and cholesterol content of nerves in vitamin B deficiency 423
— — in vitamin B deficiency....423
— effect of removal of, on development of rickets.....153
— — — roentgen rays on.....516
— epinephrin anhydremia and emergency function of.....515
— extirpation and thymus.....105
— feeding, effect of, upon learning 84
— — in Addison's disease..... 81
— function, experimental study of 80
— heterotopia of, in liver and kidney 315
— in Kala-azar 313
— — pseudaffective hyperglycemia 516
— influence on insulin.....456
— insufficiency 247
— isolated, vessel-reactions and adrenin-formation of 81
— lipoid metabolism in.....160
— measurements on cortical cells of 153
— medulla and cortex, thermogenesis as fundamental function of 441
— — chromaffin cell tumor of..517
— oxygen consumption in.....245
— regeneration of thymus following removal of.....104
— — — involuted thymus following removal of...104
— tumor and virilism.....246
Adrenalectomy and morphine tolerance 314
— relation of, to metabolism.....
Adrenin action, increase of, by amino acids 245
Adrenin and fixation of calcium in tuberculosis 314
— — insulin action on animals on different diets.....
— atropin and vascular response to 423
— (d and l) effect of, on mineral balance of lymph.....319
— effect of, in skeletal muscle.. 79
— — — on blood sugar.....332
— — — — human uterus 407
— — — — venous blood from bone marrow 517
— — — — thyroid extract and thyroxin upon response to 340
— electrolyte shift in blood tissues through action of.... 79
— hyperglycemia 516
— in control of body temperature 245
— influence of calcium and potassium on response to....315
— intracardiac injection of.....314
— on pregnant human uterus..314
— oral administration of.....247
— output in cerebral anemia....313
— reaction of partially asphyxiated intestine to..... 80
— — significance of K ion for...313
— relation of, to action of insulin 153
— resuscitation by 313
— treatment of herpes zoster... 79
— — — mytilism shock 246
Atropin, influence of, on vascular response to adrenalin.....423

Barraquer's disease 87
Basal metabolism in ichthyosis..438
Blood, effect of spleen and bone marrow feeding on.....472
— sugar with absence of sugar in urine 331
Bone marrow feeding, effect of..472

Carbohydrate metabolism in infants 333
Castrates, effect of starvation on activity of 403
Castration, influence of, metabolism 323
— — — on motor nerve energy..159

Circulatory disturbances in diseases of the glands of internal secretion 192
Corpora lutea, effect of alcohol on number of..... 90
Corpus luteum extracts and ovulation 322

Diabetes, acute, following mumps.332
— age as factor in mortality of.259
— and hypophysis 397
— — pernicious anemia 252
— epidemiology of 253
— from lesions in tuber cinereum.249
— generalized edema following insulin control in.....169
— heredity of 254
— hydremia of, treated by insulin 173
— in children 433
— — pregnant woman and in fetus 329
— infantile, with edematous erythrodermia from insulin 98
— insular regeneration after insulin in 330
— its treatment by insulin and diet (Book Review).....421
— juvenile, severe 254
— mellitus, blood urea in.....523
— — pancreatic and hepatic activity in 255
— pathology of 334
— phloridzin, insulin effect in.. 95
— production of lactic acid in, following administration of insulin 101
— rate of glycolysis in blood in.. 95
— refractory to insulin.....334
— relation of infection to coma in 524
— renal, and female gonads.... 90
— requiring surgery, insulin in.259
— severe acidosis of.....258
— symptom complex in, similar to reaction to insulin overdosage 333
— treatment by raw fresh pancreas 255
— with infantilism treated with insulin 93
— xanthosis of hands and feet in.335
— insipidus and insulin..... 93
— — cessation of, on roentgenray treatment of pituitary gland 168
— — juvenile 251
— — purine metabolism in.....165
— — precocious and hereditary.467
Diabetic cataracts in infant.....172
— clientele, changing 256
— coma, five cases of.....258
— — complicated with uremia..173
Diabetic manual for doctor and patient (Book Review)..... 76
Diet, influence of, on insulin....456
Dyscrasia, pluriglandular 61
Dyspituitarism following encephalitis lethargica 430
Dwarfism, a case of.....158

Effect of thyroidectomy on the calcium content of the blood serum 178
Endocrine compounds, influence of, on development of tadpoles 157
— element in arthritis.....248
— factors in autonomic neurology (Book Review).....311
— — influence of, on insulin...456
— function and digestive tract..517
— glands, discussion of.....315
— — surgery of 301
— — therapy 82
— — and blood calcium..... 85
— insufficiency, absorption of sugar by isolated heart in.158
— opotherapy (Book Review)...311
— organ interrelationships 297
— organs, changes in, in schizophrenia 518
— — childhood inadequacy in..319
— organs, relation of to congenital absence of upper lateral incisor teeth 35
— treatment of, obesity.....318
Endocrinology and oculocardiac reflex 178
— in pediatrics 317
— outline of (Book Review).... 76
Estrus, effect of alcohol on..... 90
— inducing substances in blood of females 519
Eunuchoid, onychauxia in.....161
Eunuchoidism and gerodermia...519
Eunuchs, clinical studies on the urine of 324
Exophthalmic goiter and pulmonary tuberculosis 178

Fröhlich's syndrome, case of....165

Genital gland, right rudimentary, significance of, in hen.....159
Glycosuria, celiac disease with..333
— significance of 99
Goiter, adenomatous, origin of..348
— adolescent 527
— and iodine 176-177
— belts in United States.....372
— damage consequent upon....526
— exophthalmic, and involuntary nervous system 529
— — — pulmonary tuberculosis.109
— — electrical treatment of....351

Goiter, exophthalmic, following iodine treatment 179
— — in British Isles.....526
— — — children 260
— — iodin in 179, 343
— — nutritional changes in.....531
— — pathology of 526
— — treated with insulin..348, 531
— heart 342
— in children 347
— — infants 341
— — intermountain region of Utah 261
— incidence and distribution among Indians 372
— — in girls 344
— — of, among school children.137
— iodin treatment of.....262, 338
— nonsurgical types and treatment (Book Review).....310
— pathological classification 439
— prophylaxis 341
— — and treatment by iodine..107
— production of, by restricted iodine 108
— substernal, treatment of, by irradiation 528
— surgical aspects of.....260
— toxic, iodine therapy in.....261
— treatment in infants.....345
— types of; classification.....354
— use of iodine in.....530

Gonad extirpation and thymus..105
— failure in male, endocrine therapy in 248
— — — — — objective determination of 249
— transplantation and morphology in aged dogs.....161
Gonads and cardiac changes during inanition 158
— — sex physiology 324
— influence of under-feeding on function of..... 89
— growth influenced by thyroparathyroidectomy 345
— of rabbits, lipoids in.....157

Hermaphroditism, and other sex anomalies, etiology of.....161
— experimental, hormone action and condition of testes-fragments in 426
— — testicular fragments in....426
— mechanics of action of sectional experiment in.....427
Heterogenitalism, case of.....229
Homosexual men, dental investigation in 160
Hormones and the pH..... 87
Hyperthyroidism, blood gases and circulation rate in.....340
Hyperthyroidism, borax in.....348
— effect of iodine on.....175
— iodin 436
— in infant (Book Review).... 76
— insulin treatment of.....530
Hypoglycemia 255
— cause of 432
Hypo-ovarianism, diagnosis and treatment of 21
Hypophyseal characteristic, secondary female hirsuteness....166
Hypophysis, abscess of.....117
— and basal metabolism.....326
— — diabetes 397
— — diencephalic centers (Book Review) 421
— — juvenile adiposity 165
— — Raynaud's disease 522
— — thyroid extracts in treatment of papilloneuritis and Fröhlich's syndrome 92
— carcinoma of 327
— changes in, during chronic inanition 167
— effect of removal of, on maintenance of life.....520
— histology of, in acromegaly...325
— in infantilism (Book Review).151
— influence of extracts of, on coronary arteries of tortoise 327
— pars tuberalis of.....520
— pathology of 251, 326
Hypothyroidism, incipient 529

Ichthyosis and basal metabolism.353
— in children 438
Infantilism and diabetes..... 93
Infundibular powder, action of, on secretion of urine.....167
Infundibulum, dialisis of physiologically active constituents of 167
Insulin 253
— action 258, 430
— — of, in frog and some vertebrates 170
— — — on basal metabolism of totally depancreatized dog 170
— — — — blood 433
— — — — carbohydrates 96
— — — — central nervous system 257
— — — pepsin on 97
— and adrenin action on animals on different diets.....157
— — diabetes insipidus 93
— — galvanic excitability 172
— — liver glycogen 331
— — phlorizin glucosuria 96
— — pituitary extract 250

Insulin and skin.....100
— — trypsin, relation between..523
— — water intake, anhydremia with 253
— by mouth 99, 169
— changes in action of, induced by ultraviolet light.....431
— does it lower blood pressure?.101
— edematous erythrodermia from 98
— effect of, in phloridzin diabetes 95
— — — on blood concentration.170
— — — — — sugar 332
— — — — carbohydrate and phosphorus metabolism of normal individuals 94
— — — — fermentation of glucose 101
— — — — isolated heart; therapeutic action of..170
— — — — metabolism of dogs under amytal anesthesia 524
— — — — morphological blood picture 171
— — — — oxygen consumption of liver 95
— — — — sugar concentration in arterial and venous blood 96
— enzymes in 97
— from codfish (method)..... 96
— generalized edema following..169
— glycogenolytic action of.....
— hypoglycemia, liver in.....434
— in acidosis and vomiting of pregnancy 98
— — diabetes requiring surgery.259
— — oily emulsion 433
— — treatment of ulcers.....431
— inactivated, reactivation of... .....523, 524
— influence of metabolic, endocrine and nervous factors on 456
— — — on phlorizin poisoning.. 96
— — — — respiratory metabolism 98
— injection, respiratory exchange after 329
— insular regeneration after...330
— intoxication, antagonistic action of glycerol on.....334
— intradermal injection of.....332
— manner of effect of.....257
— perlingual administration of..169
— pharmacological assay of.... 99
— practical use of, by patient at home 94
— problem 330
— production of lactic acid in diabetes 101
Insulin, relation of adrenalin on action of 153
— solutions, ultrafiltration and electrodialysis of 524
— treatment in childhood.....100
— — of diabetes and infantilism. 93
— — — exophthalmic goiter ... .348, 531
— treatment of hyperthyroidism.530
— — — leg ulcers 432
— — with, in diabetic coma with pulmonary tuberculosis..101
— trophic action of.....431
— unstable sulphur compound?....
— use of, in nondiabetic children 93
Internal secretions and vitamins.424
— — influence of diet on action of 157, 423
— — nature of 317
— secretory glands, circulatory disturbances in diseases of glands of 192
— — — interpretation of disturbances in metabolism due to.....213
— — — psychical disturbances in diseases of 201
Interstitial cells, physio-pathological significance of..... 88
Is there an antagonism between the male and the female sex-endocrine gland? 109
Islets of Langerhans, number of, in albino rat.....493
Kala-azar, endocrine involvement in 313
Ketosis, pathogenesis of.....259
Kidney, relation of, to action of insulin 456
Lipodystrophy, progressive 519
Liver and spleen, relation between 85
— chemical regulation of the heart by 93
— extractives with blood pressure reducing properties...430
— extracts, control of blood pressure with 430
— relation of, to action of insulin 456
Macrogenitosomia precox, in 9 year old girl..... 91
Metabolism, basal, determinations, clinical value of..... 86
— — in adiposity 248
— disturbances due to glands of internal secretion 213
— influence of, on action of insulin 456

Metabolism, observations in urticaria scripta 87
Mitochondria in thyroid hyperplasia 353
Myocarditis from thyroidin and iodine salts 438
Myxedema, adolescent, with nephrosis and tetany, thyroid and parathyroid treatment of.....435
— carbohydrate tolerance in....527
— mucin deposits in.....340
— pathology of 349

Nervous factors, influence of, on insulin 456

Obesity, endogenous endocrine, and its treatment..... 85
— in children with endocrine treatment 318
— of endogenous type.....424
— treatment of.....349
Oestrus, relation of thyroid to...410
Organotherapy, an evaluation of.181
— fundamentals of 82
— present achievements and future prospects 1
Ovarian extract feeding, effect of.221
— fluid, physiological action of. 519-520
— follicular hormone: distribution in human genital tissues 424
— grafts 427, 479
— hormone 320, 429
— mass, implanted, and latency time 426
— transplantation, intrarenal ...425
— transplants in castrated males, activity studies 428
Ovaries and renal diabetes..... 90
— influence of, on metabolism... 91
— lipoid metabolism in.....160
— mammalian, physiology of.... 88
Ovary and pituitary secretion...248
— — thyroid function 320
— arthritis from insufficiency of.320
— as therapeutic agent..... 21
— continuation of secretion of follicular hormone of, by human corpus luteum.....159
grafts in woman.....479
— hen, follicular hormone of... 87
— hormone extraction and properties of 89
— — of, in parabiosis.....505
— irradiation of 321
— lipoid content of.....164
— reactions to extracts of.....163
— regeneration of 324
— sex reversal following removal of 89
Ovary, stimulating irradiation of.321
— transplantation in old animals 90

Pancreas and carbohydrate metabolism of muscle..... 97
— — tuberculosis 90
— congenital disease of, and infantilism 331
— histology of, in diabetes, regeneration in 334
— of the albino rat.....493
— raw fresh, in diabetes.....255
— relation of, to action of insulin 456
— transplantation 333
Pancreatic and adrenal grafting. 81
Pancreatitis, syphilitic, without diabetes 95
Papers, technical and scientific, preparation of (Book Review).151
Parabiosis, hormone transfer in.505
"Para-thor-mone" 383, 384
Parathyrin (Collip) 242
— in treatment of tetany.....169
Parathyroid and experimental tuberculosis 352
— derivative that influences calcium content of blood.....102
Parathyroid extract 525
— extract in treatment of sprue.434
— function of 103
— glands, therapeutic uses of...168
— hormone of 525
— hypertrophy of submaxillary gland following removal of.335
— relation of, to action of insulin 456
— tetany, efficacy of various calcium salts in.....102
— — increased gastrointestinal permeability as factor in.103
— — Liebig's extract in.....434
— therapy, present status of....102
— transplantation 103, 336
— system and tuberculosis.....437
Pineal extirpation in fowls; precocity following 336
— gland extirpation in chicks...259
— in infantilism 151
— precocity 525
Pituitary and female sex organs.325
— — gallbladder 326
— — nitrogen metabolism 144
— anterior, deficient functioning of, in women.....166
— disease, visual fields in.....326
— disorder 521
— extract, action of.....323
— — and insulin 250
— — deterioration of 92
— — diuretic and antidiuretic effect of 92

Pituitary extract, effect of, on secretion and composition of urine 429
— feeding, effect of, upon learning 84
— neoplasm, treatment of.....429
— obesity and adolescence.....522
— pharmacology of extracts of posterior lobe of..... 92
— preparations, accuracy of standardization of, with isolated uterus 522
— relation of, to action of insulin 456
— secretion and ovary.....248
— — in cerebrospinal fluid....429
— syndromes 249
Pituitrin, effect of, on blood, lymph and urine.....165
— — — — fatty acid of liver...520
— — — — — mineral balance of lymph 319
— hyperglycemia and antagonism between, and insulin.....328
Placenta, passage of hormones through 89
Precocious puberty, case of; endocrine findings 61
— function of 479
Prostate, influence of metabolism.323
Pseudohermaphrodite, case report of 122
Pseudo-hermaphroditism, case of.229
Psychical disturbances in the diseases of the glands of internal secretion 201
Pubertas precox, 2 cases.....353
Puberty, precocious, case of..... 89
Pulmonary tuberculosis, diabetic coma of, treated with insulin.101
Secretion, introduction to study of (Book Review)..... 77
Sella turcica in abnormal children 265
Sex glands, internal secretion of. (Book Review) 150
— hormone, female, and gestational gland 320
— — female, in circulating blood 425
Sexual inversion in domestic fowl 160
Spermatoxins, production of....322
Spleen and bone marrow feedings, influence upon erythrocyte and hemoglobin content of blood 472
— — liver, relation between.... 85
— extirpation and thymus.....105
— function of 336
— relation of, to action of insulin 456
Starvation and activity of castrates 403
Status lymphaticus 337
Sugar threshold 100
Sympathetic system, pathology of 421
Teeth anomalies and endocrine organs 35
Testis, antagonistic influence of, on ovary 426
— effect of implantation of, on onychauxia of eunuchoidism 161
— in Kala-azar 313
— influence of metabolism.....323
— lipoids in, during general affections 162
— mammalism, survival of, in vitro. 162
— of cattle, lipoids in.....164
— — children, lipoids in.....163
— secondary ascent of, in starvation 164
— transplantation in man.....479
— young, endocrine activity of, in fowls 159
Testicle extracts, action of, on circulation of blood.....322
— grafts, effect of, on activity..277
— hormone, reaction of.....161
Tetania parathyreopriva, case of treated with "para-thor-mone".383
Tetany, experimental, and diet..103
— idiopathic 103
Theory of insulin action.....171
Thymic asthma, endocrine origin of 106
— constitution 106
Thymus, disappearance of genital atrophy after ingestion of..168
— enlarged, diagnosis and treatment 338
— — in infant; tetany after x-ray treatment 70
— gland in Chinese.....106
— in children 337
— influence of, on skeletal growth 105
— — — thyroidectomy, gonadectomy, suprarenalectomy and splenectomy on 105
— involuted, regeneration of, following supranenalectomy 104
— lipoids in 174
— progressive and regressive forms of Hassell's corpuscles 173
— regeneration following suprarenalectomy 104
— syphilis of 338

Thyroid, absorption by hyperplastic gland of iodin.....438
— adenoma, histogenesis of.....348
— and experimental tuberculosis 352
— — growth of reproductive organs 345
— — hypophysis extracts in treatment of papilloneuritis and Fröhlich's syndrome 92
— — iodine preparations, action of, on frog larvae.....108
— — nervous system 437
— — nitrile poisoning 176
— — ovary 320
— — specific dynamic action....107
— apparatus, effect of removal on growth of certain organs 345
— changes in blood sugar concentration after exposure of, to x-rays.....342
— compensatory hypertrophy of.177
— disease, nose, throat and larynx in 350
— diseased, thyroxin and tryptophane content of, desiccated iodine compounds in.....354
— disturbances, roentgen ray therapy in 178
— during pregnancy 340
— effect of, on metamorphosis..347
— — — removal of, on calcium content of blood.....109
— — — — — on oestrual cycle.410
— extirpation, after effects of...435
— — and thymus 105
— extract and thyroxin, effect of, upon response to adrenalin.340
— feeding of fowls.....125
— function and tryptophan.....435
— — in vitamin B deficiency...438
— gland feeding, effect on fowls.232
— — thyroxin contents of diseased 439
— hyperactivity, hypernephroma associated with 176
— hyperplasia, changes occurring during 437
— — mitochondria in 353
— hyperplastic, absorption of iodine by 354
— influence of intestinal bacteria upon 176
— — on behavior of rat.....352
Thyroid, influence on heat production in pregnancy and lactation 261
— intoxication and auricular fibrillation 341
— iodin compound of desiccated.439
— isolated, physiological properties of substances from...436
— juvenile 339
— lipoid in various diseases....343
— lymphoid hyperplasia in.....260
— pathologic, secretion antecedents and mitochondria in..529
— pathology and treatment of disease of. (Book Review) 77
— preparation of cytolytic serum for 174
— — standardization of 346
— relation of, to action of insulin 456
— Riedel's inflammation of.....350
— secretion, relation of, to specific dynamic action.....525
— standardization 347
— struma nodosa, histogenesis of, tuberculosis and.....329
— susceptibility after removal of.339
— syphilis of 263
— transitory congestive enlargement of 350
— treatment of complications arising after operations on.174
— — — obesity 343
— x-ray therapy in disturbances of 108
Thyroidectomized guinea pigs, physical-chemical changes of blood in 532
— sheep, pathological tissue....108
Thyroidin and iodine salts.....438
— myocarditis from 353
Thyrotoxicosis, interstitial, relation of, to dysmenorrhea.....346
— liver injury in.....264
Thyroxin, quantitative relationships of 339
— quantitative study of physiologic action of 176

Uterus, human, effect of adrenalin on 407
— pregnant human, action of adrenalin on 314
— stimulation by serum of pregnant and parturient women.160

Virilism and adrenal tumor.....246
